Contents of Vol. 19

Vol. 19, No. 1 (July 1988)

Maximizing hydroaromatics yield using H_2S inhibition
Y.-W. Rhee, J.A. Guin and C.W. Curtis (Auburn, AL, U.S.A.) 1
Hydroliquefraction of Raniganj coal
P.B. Chowdhurry, A.K. Sinha, T.K. Ghosh, K.N. Bhattacharya and P. Samuel (Dhanbad, India) 7
Kinetic study of coal slurry electrolysis-oxidation and desulfurization of Illinois No. 6 coal by aqueous ferric chloride
K. Kawakami, K. Fujio, K. Kusunoki, K. Kusakabe and S. Morooka (Fukuoka, Japan) .. 15
Kinetic study of upgrading pine pyrolytic oil by hydrotreatment
Y.-H.E. Sheu, R.G. Anthony and E.J. Soltes (College Station, TX, U.S.A.) 31
Sulfur groups in the cokes obtained from coals of different ranks
G. Gryglewicz and S. Jasieńko (Wroclaw, Poland) 51
Interfacial tension behaviour and ESR properties of asphaltenes derived from heavy oil
K.C. Khulbe, G.H. Neale and V. Hornof (Ottawa, Ontario, Canada) 61
Extraction of coal through dilute alkaline hydrolytic treatment at low temperature and atmospheric pressure
D.K. Sharma and S.K. Singh (New Delhi, India) 73
The partitioning of elements during physical cleaning of coals
R.J. Conzemius, C.D. Chriswell and G.A. Junk (Ames, IA, U.S.A.) 95

Vol. 19, No. 2 (September 1988)

Reactivity of heat-treated coals
W. Rybak (Wroclaw, Poland) 107
An FTIR study of Australian coals: Characterization of oxygen functional groups
S. Supaluknari, F.P. Larkins (Tasmania, Australia), and P. Redlich and W.R. Jackson (Victoria, Australia) 123
Selective absorption of H_2 from CO_2 — factors controlling selectivity towards H_2S
V. Srinivasan and R.C. Aiken (Salt Lake City, UT, U.S.A.) 141
Characterization of naphtha produced from processing coal-heavy oil
B.A. Farnand, P.M. Rahimi and S.A. Fouda (Ottawa, Canada) 153
Viscosity of coal-derived liquids in the brown coal liquefaction (BCL) process
O. Okuma (Kobe, Japan), K. Mae (Kyoto, Japan), T. Hirano (Kobe, Japan) and Y. Nakako (Tokyo, Japan) 165
Aromaticity of coal: A reappraisal of the graphical-densimetric approach
B.K. Mazumdar (Calcutta, India) 179
Effect of H/C ratio on coal ignition
E. Furimsky (Ottawa, Canada) 203

Vol. 19, No. 3 (October 1988)

Reductive alkylation of coals in liquid ammonia
H. Wachowska, A. Andrzejak and M. Kozlowski (Poznań, Poland) 215

Application of ultrasonic measurements to the determination of concentration of coal extracts
M. Krzesińska and J. Pajak (Gliwice, Poland) 229
Chemical coal cleaning with molten alkali hydroxides in the presence of microwave irradiation
K. Kusakabe, S. Morooka and S. Aso (Fukuoka, Japan) 235
Kinetics and mechanism of thermolysis of dibenzyl ether
V.Yu. Korobkov, E.N. Grigorieva, O.V. Senko and I.V. Kalechitz (USSR) 243
Hydrotreating catalyst deactivation by coke from SRC-II oil
Y. Yamamoto (Saitana-ken, Japan), F. Kumata (Kawasaki, Japan) and F.E. Massoth (Salt Lake City, UT, U.S.A.) 253
Modeling a pilot-scale fluidized-bed coal gasification reactor
R.P. Ma, R.M. Felder and J.K. Ferrell (Raleigh, NC, U.S.A.) 265
